Thyroid

- Thyroid (gland) (body)
- Thyroid-adrenocortical insufficiency syndrome
- Thyroiditis

Disease or disorder
- Hormone resistance
- Lingual
- Nodule (cystic) (nontoxic) (single)

Thyroiditis

* Complicating pregnancy, childbirth or the puerperium
- Acute (nonsuppurative) (pyogenic) (suppurative)
- Autoimmune
- Chronic (nonspecific) (sclerosing)
- De Quervain’s (subacute granulomatous)
- Drug-induced
- Fibrous (chronic)
- Giant-cell (follicular)
- Granulomatous (de Quervain) (subacute)
- Hashimoto’s (struma lymphomatosa)
- Iatrogenic
- Ligneous
- Lymphocytic (chronic)
- Lymphoid
- Lymphomatous
- Nonsuppurative
- Pseudotuberculous
- Pyogenic
- Radiation
- Riedel’s
- Subacute (granulomatous)
- Suppurative
- Tuberculous
- Viral
- Woody

Hypothyroidism (acquired)

* Complicating pregnancy, childbirth or the puerperium
* Neonatal, transitory
- Congenital (without goiter)
- Due to (e.g., exogenous substance, iodine-deficiency, irradiation therapy...)
- Iatrogenic
- Iodine-deficiency (acquired)
- Myxedema coma
- Postinfectious
- Postirradiation
- Postprocedural
- Postsurgical
- Subclinical, iodine-deficiency related

Hyperthyroidism (latent) (pre-adult) (recurrent)

With (e.g., goiter, infiltrative dermopathy, storm...)
* Complicating pregnancy, childbirth or the puerperium
* Neonatal, transitory
* Transient with chronic thyroiditis
- Drug induced
- Due to ectopic thyroid tissue
- Due to ingestion of (excessive) thyroid material
- Factitious
- Graves’ disease (exophthalmic goiter)
- Heart disease
- Overproduction of thyroid-stimulating hormone
